Dare to embark on a prestigious cruise combined with French cuisine... in the heart of Paris .

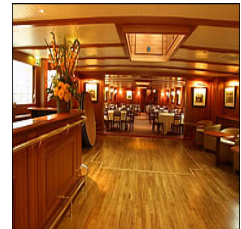

Come on board the magnificent Don Juan II yacht, experience a complete change of scenery over dinner and enjoy a panoramic view of the city.

One of the highlights of this unforgettable night will no doubt be Gérard Besson's cuisine, along with great comfort and service.

Comfortably seated in an all brass-and-wood dining room, you will enjoy the great scenery of Paris by night. Each table is with a view, and that is without even mentioning those on the upper deck... You will glide by Notre Dame, the Louvre and Orsay museums, all the monuments along the Seine between the Concorde and île de la Cité.

For this unique experience, Gérard Besson has composed a unique menu: four courses, cheese, dessert, and champagne all along...
